

What is the % change in average attendance per game for NHL teams compared to the 2000-01 season?

Average attendance per game has steadily increased **compared to the 2000-01** season for most teams. The Chicago Blackhawks have seen the most **postive % change** whereas the Colorado Avalanche have seen the most **negative % change**.

2004-05 lockout that caused the entire season to be lost

2012-13 lockout saw a significant reduction in overall attendance, as 60% of regular-season games were cancelled; however, average attendance per game remained consistent
